Administered by UW-Madison's **Discovery to Product (D2P)**, the Innovate Network is the university's front door for innovators to find resources to help them bring their ideas to the marketplace.

The Network serves as a hub for a collaborative group of campus-based and campus-affiliated member organizations that work to achieve two common goals:

- Fostering a strong culture of innovation and entrepreneurship at UW-Madison
- Strengthening the connection between campus and the entrepreneurial network in the Greater Madison community
